

Accelerating Program Delivery Through AI

Build Smarter. Document Faster. Test Automatically.

What is ProgramGenie?

AI-powered platform that accelerates software delivery by generating everything needed from idea to release

Why ProgramGenie?

01 Accelerates time-to-market.

Reduces weeks to hours

02 Cuts licensing cost.

Replaces multiple tools with one solution

03 Ensures consistency.

High-quality, standard-based outputs

04 Bridges business and technology.

From requirements to deployment

05 Scales projects instantly.

Support more work without adding headcount

06 Enterprise-grade security.

Strict data protection, confidentiality & compliance

Concept

Business Value

- Accelerated delivery** → gain market advantage, ensuring better ROI.
- Cost efficiency** → fewer licenses, less overhead.
- Robust security** → enterprise-grade protection and confidentiality.
- Simplified landscape** → one platform vs. many integrations.
- Effortless scalability** → handle more projects without more people.

Sound Familiar?

Endless requirements, no code yet?

Technical assessments too complex?

Trapped in legacy code?

Apps running below potential?

Migrating slowing you down?

Missing human capital?

Overwhelmed with constant change?

Deadlines always slipping?

Testing left behind?

If any of this sound familiar, it's time for ProgramGenie !

Benefits

1-2 days

to gain a complete view of the project/product scope.

73%

faster feedback loops through automated artifact and requirement generation.

92%

reduced guesswork and requirement misinterpretation by producing well-aligned user stories and tasks.

84%

fewer production defects by generating better test cases and leveraging issue detection.

89%

faster change implementation through impact analysis.

67%

improved modernization by transforming undocumented legacy apps and code into well-documented, maintainable solutions.

Disruptive innovation, transformative shift, industry-defining moment

ProgramGenie offers a unified solution.

Faster time-to-market. Simplify IT landscape. Cost Efficiency.
